

K-Love provides me as well as other listeners in my area with positive and encouraging music/talk without commercials. I support K-Love with a monthly pledge and prayer and believe K-Love is a valid ministry with Christian and moral attributes and would be very disheartened if it were displaced by an LPFM broadcaster providing other programming. I depend on K-Love's encouraging words and positive music on my way to work as a Neonatal Intensive Care Nurse. I find it keeps me focused and provides me with strength in taking care of my precious sick babies. The Fresno area is a community with many people in need of love, encouragement and healing and K-Love is one of the few FREE ways of obtaining this just by turning on the radio and listening for a few minutes; you will find yourself revived! Please do not displace this needed station in our area!

Thank you, Karen McGough, RN
